PROFESSIONAL SUMMARY

Software Engineer and Odoo Developer with over 1.5 years of professional experience delivering full-stack Odoo solutions across both frontend (OWL, React) and backend (Python, Odoo ORM). Progressed from a three-month internship to Associate Software Engineer, and most recently promoted to Software Engineer, on the strength of consistent delivery. Skilled in building custom Odoo modules, developer tooling, REST API and FastAPI integrations, and modern, responsive interfaces, with additional full-stack experience in Node.js, Express.js, PostgreSQL, and Laravel.

TECHNICAL SKILLS

Odoo Development: Odoo ERP, Full-Stack Odoo (Frontend & Backend), OWL (Odoo Web Library), QWeb/XML Templates, Custom Modules, Odoo ORM, REST API & XML-RPC Integration

Programming Languages: Python, JavaScript, PHP

Backend & Frameworks: FastAPI, Laravel, Node.js, Express.js, RESTful APIs

Frontend: React, PERN Stack, MERN Stack, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: PostgreSQL, MySQL, MongoDB

Tools & Practices: Git, GitHub, API Integration, Backend & Frontend Development

PROFESSIONAL EXPERIENCE

Software Engineer

Aug 2026 - Present

Semantic Technology

Naxal, Kathmandu, Nepal

- Promoted from Associate Software Engineer to Software Engineer based on consistent strong performance and delivery.
- Leading development and customization of Odoo ERP modules in Python and building React-based frontends integrated with Odoo APIs.
- Designing backend modules and managing portal development and project creation within Odoo.

Associate Software Engineer

Mar 2025 - Aug 2026

Semantic Technology

Naxal, Kathmandu, Nepal

- Promoted from Software Engineering Intern to Associate Software Engineer within three months based on strong performance and delivery.
- Developed React-based frontend interfaces integrated with Odoo REST APIs to deliver responsive, modern user experiences.
- Designed and built custom Odoo backend modules (Python, Odoo ORM) and managed customer portal and in-system project creation to support core business workflows.

PROJECTS

X-Ray Studio

Odoo, Python, JavaScript, GitHub

- Built an Odoo developer tool that lets developers hover over any field to instantly reveal the underlying Odoo default code.
- Added one-click navigation to the exact line in Odoo's GitHub source, making it far easier to trace and locate core Odoo code.

Kanbanzo

PostgreSQL, Express, React, Node.js (PERN Stack)

- Built a project management platform covering task management, planning, and analysis to give managers clear visibility and control over their team's work.
- Developed the full application on the PERN stack (PostgreSQL, Express, React, Node.js), handling both frontend and backend.

Odoo × FastAPI Integration

Odoo, FastAPI, Python, XML-RPC

- Built an integration layer connecting Odoo ERP with external services through FastAPI, exposing and syncing data over clean REST endpoints.
- Implemented XML-RPC and Python-based data exchange for reliable, real-time communication between Odoo and third-party systems.

Health Consultation Software

Odoo, React, Zoom SDK

github.com/Aakashkandel/shuravi-old

- Built a telemedicine platform on Odoo, integrating the Zoom SDK for live doctor-patient video consultations.
- Developed React interfaces powered by Odoo APIs for registration, consultation forms, and appointment management, with all data centralized in custom Odoo backend modules.

EDUCATION

Bachelor in Computer Application (BCA)

Lumbini ICT Campus

Apr 2021 - Apr 2026

Gaindakot-4, Nawalpur

- Coursework focused on web development, programming, databases, and software engineering.

Higher Secondary Education (+2), Science

Gaindakot Namuna Secondary School

2019 - 2020

Gaindakot-4, Nawalpur

LANGUAGES

English, Nepali, Hindi
