🔗 <https://aakashkandel.com.np/>

A dedicated Software Developer with over a year of hands-on experience in the Odoo ERP framework. A motivated learner who successfully transitioned from a 3-month internship to a permanent Associate role. Proficient in building functional modules using Python and OWL, with strong knowledge of Odoo OWL templates and backend development. Experienced in API integrations and focused on modernizing the Odoo frontend experience.

EXPERIENCE

Associate Software Engineer

Kathmandu, Naxal

Semantic Technology

Mar, 2025 - Present

Started as an Intern in Jan 2025, quickly promoted to Associate Engineer. Developed React-based frontends integrated with Odoo APIs, designed backend modules, and managed portal development and project creation within Odoo.

EDUCATION

Gaindakot-4

Gaindakot Namuna Secondary School

Jul, 2019 - Aug, 2020

Completed higher secondary education (+2) in science at Gaindakot Namuna Secondary School.

Bachelor in Computer Application

Gaindakot-4, Nawalpur

Lumbini ICT Campus

Apr, 2021 - Apr, 2026

I have completed my Bachelor of Computer Application (BCA) with a focus on web development, gaining strong skills in programming, databases, and software development, and I am committed to continuous learning and real-world application.

PROJECTS

Health Consultation Software | Odoo

Developed a health consultation app integrating Zoom SDK with Odoo. Built React interfaces using Odoo-generated APIs to manage doctor-patient registrations, consultation forms, and centralized data management within Odoo backend modules.
